CLAYTON, Mo. – Come the summer of 2026, builder MBG will complete 151 luxury townhomes and apartments for Keely Properties' Vivienne mid-rise luxury living community in Clayton, Mo.

Designed by Trivers, the 252,002-square-foot mid-rise features nine townhomes and 142 apartments. The building presents a balanced symmetry as it steps down on the western side of the development. It is being constructed with a wood frame over a concrete podium clad in brick and concrete siding with profusion of large windows. Two-story, walk-up style townhomes will face Meramec and occupy the western side of the building. It also features a parking garage.

The living community features a second level entertainment and relaxation patio space with an outdoor pool, outdoor kitchen, fire pits and barbecue grills. Other amenities include:
